

SCUM Meeting Minutes

September 14, 2009

The September 14th meeting was called to order by Geoff Fernald.

We were told that Ellen Williams is recuperating from eye surgery. A well-attended memorial for Joyce Rehlich was held at the San Carlos Adult Center.

Geoff spoke about installing Snow Leopard. He said that it installs easily and takes about 45 minutes. 30 pages of information are available and should be read before installing or mentor help can be used. There might be problems with scanners and printers.

The minutes were approved.

Jack Fisher reported that SCUM had \$3,034 in the bank.

Toby Fernald gave a thorough demonstration on how to use Keynote to put together a computer presentation with pictures, sound, music, movies, etc.

Volunteers were asked for president or co-chair for the 2009/10 year. Folks interested should contact [Geoff](#).

Discussion followed about December party/meeting. If food is to be served it needs to be in the Park View room on Friday, Dec. 11th at 10:30.

If lunch is to be served a manager is needed and a catering cost be advised. It was suggested that something simpler be done - donuts. If food is not served then the regular meeting would be held on Monday, the 7th.

An upgrade for SCUM Mac-Mini is needed. Geoff's wife has one available for \$300. It was moved and seconded that this purchase be made. The motion was approved.

A new Photoshop Elements class \$20 started on Wed., Sept. 16 - not for beginners. A Mac beginners class will be presented on Nov. 4 and 18, 2 hours each based on Tiger OS. For more information, see our [website](#).

There is a possibility that the Lab will be downsized to the previous Gift Shop room.

SCUM 411

411 problems can be e-mailed or Hillsdale Apple Store is a great resource.

Respectfully submitted, Betty Torrez, Secretary
